HONG KONG SECTION

Driver Guide

for Hong Kong Users of
the Hong Kong-Zhuhai-Macao Bridge

General

Motorists are advised to plan their trips well in advance and check the latest traffic conditions and availability of car parking spaces in Hong Kong Port Domestic Car Parks by different channels (e.g. radio announcements and the Transport Department's all-in-one mobile application "HKeMobility") prior to their trips.

Cross-boundary Vehicles Driving on the Right

The Hong Kong-Zhuhai-Macao-Bridge (HZMB) Hong Kong Link Road (including Scenic Hill Tunnel) is a right-driving expressway. Motorists should keep to the right most lane unless traffic signs or road markings indicate they may do otherwise, or when motorists intend to overtake or turn left or when motorists pass stationary vehicles on the road if necessary. Overtaking other vehicles should be on the left only.

The distance from Hong Kong Port to Zhuhai Port and Macao Port of the HZMB is approximately 42 kilometres. No turnaround facility, fuel station/ liquefied petroleum gas or washroom is provided along the expressway.

Loading and Height Limit

The loading and height limits of vehicles in Mainland, Hong Kong and Macao are different. Based on the territoriality principle and depending on the routeing, cross-boundary goods vehicles and cross-boundary coaches are required to comply with the requirements stipulated in the relevant standards, as detailed below:

Mainland: The maximum loading for goods vehicles in Mainland is 49 tonnes. For specific details, please refer to GB1589-2016 《道路車輛外廓、軸荷及質量限值》和《超限運輸車輛行駛公路管理規定》(中華人民共和國交通運輸部令2016年第62號).

Hong Kong: The maximum loading for goods vehicles in Hong Kong is 44 tonnes. For specific details, please refer to Road Traffic (Construction and Maintenance of Vehicles) Regulations (Cap. 374A).

Macao: The maximum loading for goods vehicles in Macao is 38 tonnes. For specific details, please refer to "Regulamento do Trânsito Rodoviário".

Motorists are reminded that vehicles carrying dangerous goods in Categories 1, 2 or 5 are prohibited from accessing Scenic Hill Tunnel. Motorists using the HZMB are also reminded to check and follow regulations on transporting dangerous goods through the Main Bridge.

For details, please visit http://zizhan.mot.gov.cn/zfxxgk/bnssj/zcfgs/201604/t20160425_2018244.html

Tips for Procuring Insurance

Vehicles travelling between Guangdong and Hong Kong via the HZMB are required to purchase motor insurance policy in the Mainland and Hong Kong. As the HZMB Main Bridge is located within the Mainland waters, the owners of vehicles travelling between Hong Kong and Macao are required to purchase motor insurance policy Hong Kong, Macao and the Mainland, having regard to the territoriality principle.

For details, please refer to the HZMB webpage on the website of the Hong Kong Federation of Insurers (HKFI) (<https://www.hkfi.org.hk/hzmb/index.html>).

NOTES FOR DRIVERS

Driving Routes

Information on routes to Drop Off Area outside Passenger Clearance Building (PCB) at Hong Kong Port, Domestic Car Parks and Vehicle Clearance Plaza (VCP) via the HZMB to Zhuhai or Macao is provided below for drivers' reference.

Driving to Hong Kong Port

Motorists travelling to Hong Kong Port are recommended to travel via North Lantau Highway and Tuen Mun - Chek Lap Kok Link (Southern Connection), i.e. Shun Long Road.

ARRIVING AT HONG KONG PORT

Motorists may drive to:

Drop Off Area
outside PCB

For drop off only

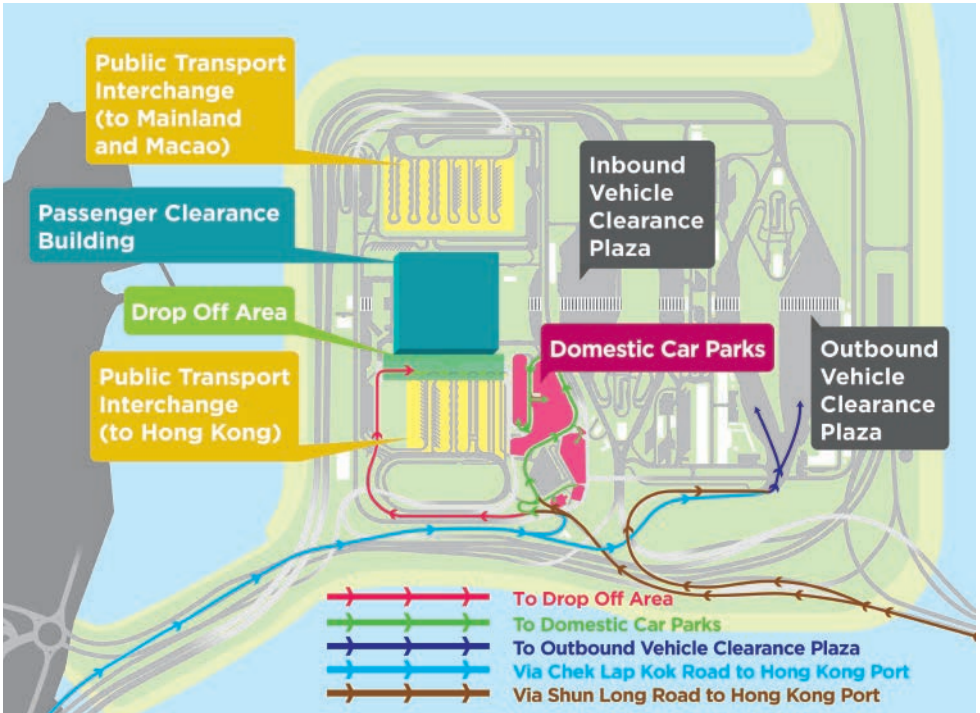

Domestic Car Parks
(Pre-booking Recommended)

Drivers can park their cars at the domestic car parks (with on-line pre-booking service), complete the clearance procedures at the PCB and travel to Zhuhai/Macao Port by shuttle buses.

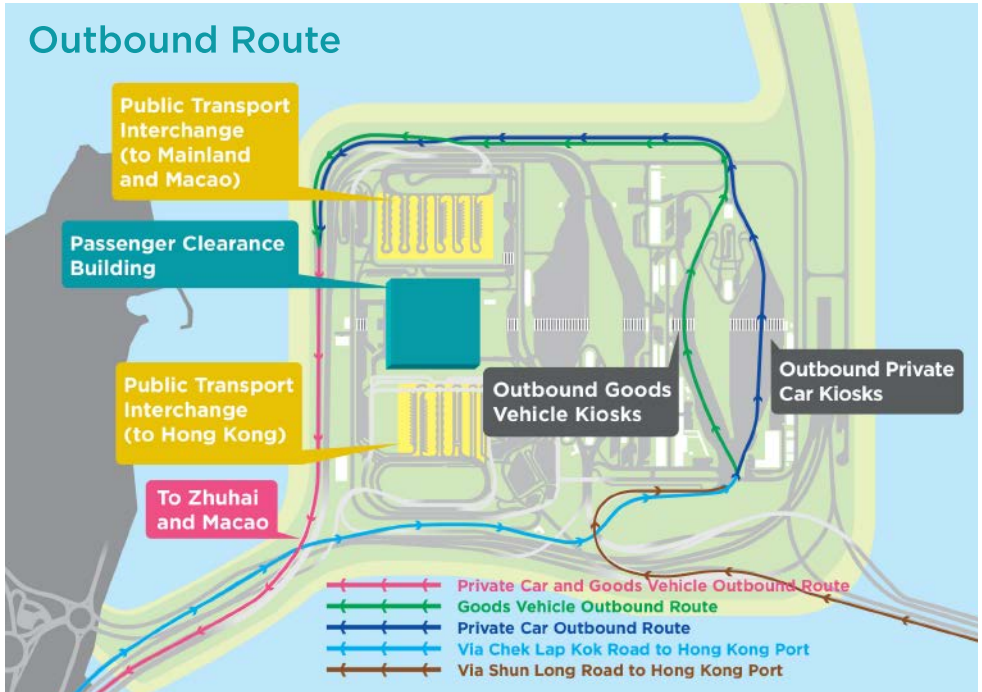

VCP (to Zhuhai/Macao via the HZMB)

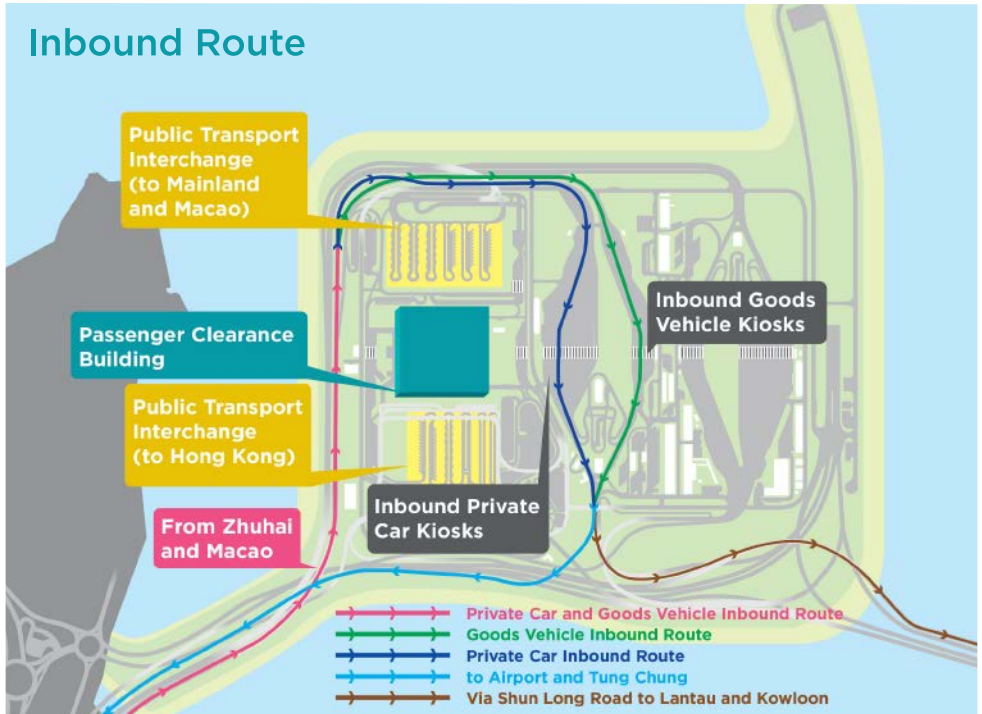

Drivers with relevant licences and permits can drive to VCP for clearance before driving to Zhuhai / Macao.

Outbound Route

Inbound Route

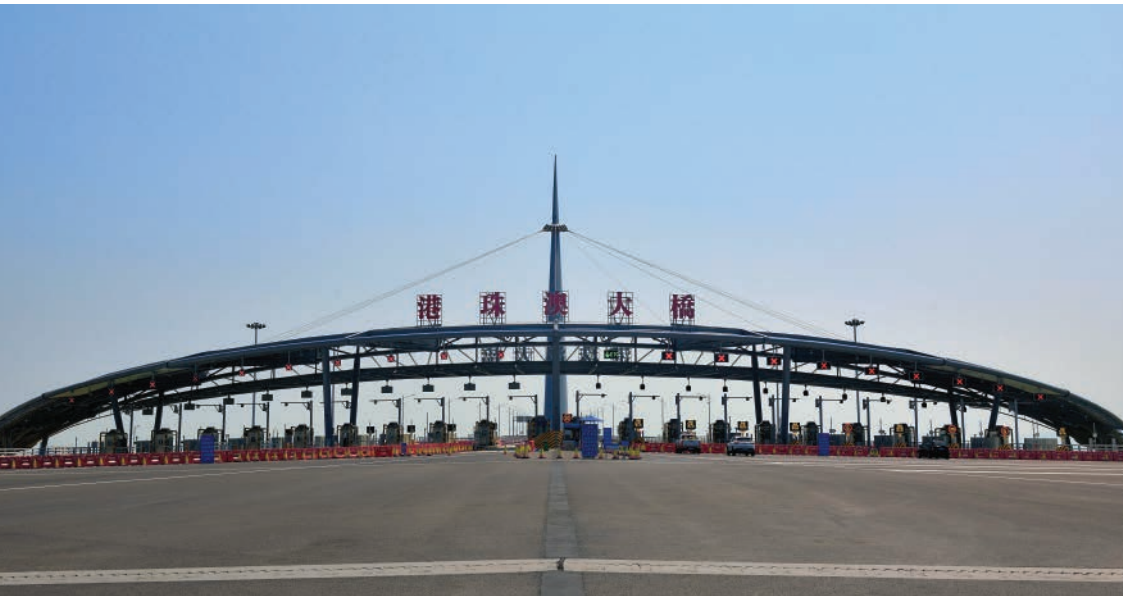

Hong Kong Port Domestic Car Parks (Pre-booking Recommended)

The Domestic Car Parks at Hong Kong Port (Car Park 1 to 5) provides 673 private car parking spaces (including 12 disabled parking spaces), 25 motorcycle parking spaces, 14 light goods vehicles parking spaces and 21 pre-booked taxi parking spaces. Car Park 1 is an hourly car park. For other car parks, parking spaces can be booked from 24 hours to 7 days in advance. Motorists, after parking their vehicles, can go to the Passenger Clearance Building for departure clearance and then take the shuttle bus to the Zhuhai Port or Macao Port.

Please visit <https://hzmbparking.com.hk> for details and relevant reservation procedures for parking spaces at the Hong Kong Port Domestic Car Parks.

The public may also obtain real-time parking information of the Hong Kong Port Domestic Car Parks via the Transport Department's mobile application "HKeMobility".

Vehicular Kiosk Facilities

Vehicles entering or leaving Hong Kong via the HZMB must go through customs clearance at the vehicular kiosks on Hong Kong Port. Physical inspection of the drivers, goods and vehicles, if necessary, may be conducted. For more information on passenger and cargo clearance, please visit:

https://www.customs.gov.hk/en/passenger_clearance (passenger clearance)

https://www.customs.gov.hk/en/cargo_clearance (cargo clearance)

Registered users of Road Cargo System and Intermodal Transshipment Facilitation Scheme of the Customs and Excise Department can import / export cargoes via the HZMB Hong Kong Port without re-registration. For more information, please visit <https://www.rocars.gov.hk>

There are no duty-free concessions for all inbound cross-boundary drivers.

Number of Vehicular Kiosk:

Traffic Arrangement in case of Emergency

Special traffic arrangement or bridge closure will be implemented in case of accidents or inclement weather. Passengers are advised to be alert to the latest traffic news on radio and television.

Emergency Telephone Number

In case of incidents or assistance needed at the following locations, passengers can call relevant emergency hotlines:

- Main Bridge or Zhuhai Port: 110 (Mainland hotline)
- Macao Port: 999 (Macao hotline)
- Hong Kong Port or Hong Kong Link Road: 999 (Hong Kong hotline) or 112 that will be connected to the 999 (Hong Kong hotline) from any local mobile phone network with coverage at the location

Vehicle Breakdown

If a vehicle breaks down on the Hong Kong Link Road at a location which poses imminent dangers to the drivers and other road users, the Police will arrange a contractor's towing truck to move it to the nearest safe place. The driver is then required to arrange private towing to leave the scene (Drivers can also arrange cross-boundary towing if necessary).

Scenic Hill Tunnel, which is a section of the Hong Kong Link Road, is managed by the tunnel operator of the Transport Department. If a vehicle breaks down within the tunnel area, or has an accident, the tunnel operator will arrange recovery vehicle to move the broken down vehicle to the nearest safe location before the driver arranges private towing service to tow away from the tunnel area.

If a vehicle breaks down on the Main Bridge, the HZMB Authority will arrange a towing truck to move it to the Eastern Artificial Island (about 300 metres from the HKSAR boundary), and the driver is then required to arrange private towing to leave the scene (Drivers can also arrange for cross-boundary towing if necessary).

Drivers are reminded to obtain the contact of companies providing cross-boundary towing services before departure.

Procedures Required for Hong Kong Private Cars to Travel between Hong Kong and Guangdong / Hong Kong and Macao

Hong Kong private cars are required to complete all the formalities as required by the three governments before driving to the HZMB.

(1) Private cars travelling between Hong Kong and Guangdong

Similar to arrangements at other land boundary crossings, private cars which have been allocated with quotas for travelling between Guangdong and Hong Kong via the HZMB must first obtain the Mainland Approval Notices issued by the Guangdong Public Security Department and Closed Road Permit (CRP) issued by the Transport Department and complete other formalities in the Mainland before travelling between Guangdong and Hong Kong.

Please scan the QR code for details on the application procedure of CRP:

(2) Private cars travelling between Macao and Hong Kong

(a) Regular Quota for Hong Kong Private Cars to Macao (Access to City Centre)

The number of regular quotas for Hong Kong private cars is set at 300, of which 150 are company quotas and another 150 are individual quotas. Hong Kong private cars allocated with regular quotas are permitted to make multiple access to the city of Macao via the HZMB. These quotas are valid for three years and would be re-allocated upon expiry by the Transport Department through open application.

Please scan the QR code for further information:

(b) HZMB Macao Port Park-and-Ride Scheme

Eligible Hong Kong private car owners may go to Macao via the HZMB and park their cars at the East Car Park of the HZMB Frontier Post at Macao Port for a short stay without any quota requirement. The private car owners only need to obtain the requisite vehicle licences and permits from the Hong Kong and Macao Governments respectively and reserve a car parking space at the Macao Car Park. Drivers and passengers of the private cars should park their cars at the Macao Car Park and complete the clearance procedures before interchanging with public transport to travel to other areas of Macao.

Please scan the QR code for further information:
